

Brainstorming & Idea Prioritization Template

Date	05 July 2026
Team ID	
Project Name	Personalized Networking Assistant
Maximum Marks	3 Marks

Step 1: Brainstorm and Idea Listing

The team collaboratively discussed and analyzed various ideas to enhance professional networking using Artificial Intelligence and Natural Language Processing. During the brainstorming session, members proposed features such as personalized conversation starter generation, event theme analysis, user profile and interest matching, Wikipedia-based fact verification, and conversation history management. These ideas were grouped based on their functionality and potential impact, enabling the team to identify the most effective and feasible solution for developing the **Personalized Networking Assistant**.

S.No	Team Member	Idea / Suggestion	Category	Group No.
1	Ratna Amulya Karri	AI-based Personalized Conversation Starter Generation	AI Model	1
2	Anjali Yanamadala	Event Theme Analysis using DistilBERT	NLP	1
3	Mahidhar Doddipatla	User Profile & Interest Matching	Recommendation	2
4	Nandini Devika Diyyana	Wikipedia Fact Verification	Verification	2
5	Siva Rama Krishna Veepu	Streamlit UI, History & Feedback	Frontend	3

Step 2: Idea Prioritization

The ideas generated during the brainstorming session were carefully evaluated based on their feasibility, importance, and overall impact on the project's objectives. The team identified AI-based Personalized Conversation Starter Generation as the highest priority because it is the core feature of the Personalized Networking Assistant. Event Theme Analysis using DistilBERT and Wikipedia Fact Verification were selected as the second priority to ensure relevant, context-aware, and factually accurate networking suggestions. Finally, the Streamlit Web Interface with FastAPI Integration was chosen as the third priority to provide a user-friendly platform for interacting with the system. This prioritization enabled the team to focus on developing the most valuable and practical features first, ensuring an efficient, intelligent, and reliable networking assistant.

Brainstorming & Idea Prioritization Template

Group No.	Final Idea	Feasibility (High/Medium/Low)	Importance (High/Medium/Low)	Priority	Selected (Yes/No)
1	AI-based Personalized Conversation Starter Generation	High	High	1	Yes
2	Event Analysis & Wikipedia Fact Verification	High	High	2	Yes
3	Streamlit Web App with FastAPI Integration	Medium	High	3	Yes
