Customer Journey Map

The following Customer Journey Map outlines the user's experience at each stage of interacting with the **Personalized Networking Assistant**. It highlights customer actions, touchpoints, thoughts, feelings, process ownership, and opportunities for improvement. The map helps understand how AI assists users in building meaningful professional connections through personalized conversation starters and fact verification.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	- Open web application - Create Profile - Enter interests and event details	- Get AI conversation starters - Analyze event topics - Verify facts	- Start conversations - Build professional connections - Save conversation history
Touchpoint <i>What part of the service do they interact with?</i>	- Streamlit Web UI - User Profile Form	- AI Recommendation Engine - GPT-2 & DistilBERT - Wikipedia API	- Conversation History - Feedback System
Customer Thought <i>What is the customer thinking?</i>	- Is my profile complete? - Will this help me network?	- Are these suggestions relevant? - Is this information accurate?	- Did I make good connections? - Can I use these suggestions again?

Customer Feeling <i>What is the customer feeling?</i>	• Curious • Hopeful	• Confident • Interested	• Happy • Satisfied
Process Ownership <i>Who is in the lead on this?</i>	• User	• AI Recommendation System	• User & Networking Assistant
Opportunities <i>How can we improve this stage?</i>	• Simplify profile creation • Auto-fill user interests	• Improve conversation quality • Faster AI responses	• Export networking history • Personalized follow-up suggestions
